Professional Summary

Software Engineering student with a strong foundation in programming and software development. Proficient in Python, Java, and web technologies such as React.js. Proven ability to tackle problems effectively and work collaboratively in team settings. Actively seeking an entry level/Co-op position to apply technical skills and contribute to innovative software solutions.

Experience

Companion AI website

September 2024 to December 2024

University of Ottawa - Ottawa, Ontario

- Developed a web application using React.js and Node.js to provide personalized AI-driven recommendations to increase course accessibility for University Professors at Rutgers University.
- Optimized performance by identifying and resolving code inefficiencies.
- Implemented function that parses CSV files, optimizing data processing and storage.
- Lead UX design to create an easy to understand interface for users.
- Provided technical guidance to team members who were unfamiliar with coding.

Android Rental app

September 2024 to December 2024

University of Ottawa - Ottawa, Ontario

- App created to learn about database management and android app development; users are able to list or rent various items such as sports equipment and property.
- Modeled functions as UML graphs to simplify and streamline development.
- Created classes in Java to implement the app's functionality.
- Connected functions to Firebase to track user data and provide real-time updates.
- Collaborated with a team of 4 to design and develop the app, ensuring seamless integration of all components.

Supervisor and Barista

March 2023 to Present

Presotea Orleans - Ottawa, ON

- Communicated effectively with co-workers to coordinate tasks and ensure smooth operation
- Ensured customer satisfaction by providing exceptional service and addressing concerns promptly
- Answered customer questions and made product recommendations according to needs.

Host and Expeditor

March 2022 to October 2022

Montana's BBQ & Bar - Ottawa, Ontario

- Managed reservations and seating arrangements to optimize customer flow.
- Collaborated with kitchen staff to ensure timely food delivery and quality service.
- Maintained a clean and organized front-of-house area to enhance the dining experience.
